

# What is Support Coordination?

Support coordination helps you to make the best use of your supports in plan. Support coordination is a capacity building support which helps you to:

- Understand and use you NDIS plan to pursue your goals
- Connect you with NDIS providers, community, mainstream and other government services
- Build your confidence and skills to use and coordinate your supports.
- A support coordinator or specialist support coordinator delivers support coordination services.

## Empowering your Journey with NDIS

At Empowerconnect Coordinators, we believe in the power of connection and support. Our dedicated team is here to help you easily navigate the NDIS.

**YOU CONTROL YOUR NDIS JOURNEY, AND YOUR VOICE MATTERS.**

Coordinating services and enhancing informal networks are essential for this tailored support, and your active participation in these processes is the key. We understand the obstacles in life and the importance of navigating systems to access necessary assistance. With a combined experience of over four decades in the community service sector, we have collaborated with families and individuals to reach their objectives. Our commitment lies in positively impacting through our work and empowering change individually.

*With over 40 years of experience in the community service sector, we have collaborated closely with families and individuals.*
