

Additional Needs Education is a small company whose centre focus is the individual and their goals and aspirations in life. The vision for this company is to provide personal support and education to an individual and their personal community. Working closely with families provides continuity, trust, respect, open communication and the scaffolding for a successful relationship. We work together to achieve short and long-term goals.

### **Our History**

Additional Needs Education was founded in 2015 by Collette Davies. I began working in the disability sector in 1999 as a volunteer and made it my career path from 2001. I have worked in regional Victoria, London and Melbourne. This has given me the opportunity to experience a range of services and developmental approaches, as well as working with a vast array of individual abilities. Addition Needs Education is registered under the NDIS and complies with the disability services sector.

### **Access for Families**

Any family or individual on the NDIS is welcome to meet with the team to explore the options of this service and how it will fit into your life. Meeting requests are accepted via email and Phone (listed below).

### **Days and Hours of Operation**

Additional Needs Education sessions can be provided seven days a week 24hours a day. Session times and locations are agreed upon in advance to meet the best interest of the individuals involved.

Sessions can include respite, recreation, personal care, life skills, community access, employment support, therapy, transport, overnight stay, active overnight, meetings and individual supports.
