Manage NDIS services with Penelope

Penelope's built-in NDIS module allows your agency to seamlessly manage and track NDIS services alongside your other programs.

Having all your client and service information in one place enables your team to deliver consistent care, produce reliable reports, and get a comprehensive picture of each client's journey from beginning to end.

Penelope's integrated NDIS functionality helps you:

Manage support plans

Upload remittance responses

Oversee all agency NDIS claims

Report on NDIS services

Configure NDIS support items and policies

Assist clients who are self-, plan-, and NDIA-managed

Create agreements outlining covered services, rates, limits, and more

Export CSV files to upload to the myplace portal
