Why Us?

Firstly, and most importantly, we truly treat every client like a Gem, and their needs come first. We spend a lot of time personally matching support workers with clients, so we get the right match based on our client's requirements.

We understand the difficulty of accessing the right service provider for you and how frustrating it can be. Diverse Gem Care was created to enable people living with a disability to feel empowered and to live an independent and fulfilled life.

Our Mission

DGC perceives life as a GEM and we handle our clients and service recipients as precious gems which can only get better with care and appreciation. We embrace people from diverse backgrounds with a deep understanding that their unique cultures are a part of their being.
