

Disability Support Services

Disability Support Services provides services to people with a disability.

Disability Support Services is available to children and adults, and provides a range of support options that can include social activities, centre based group programs and life skill development.

Activities can be customised according to individual needs, specific participant goals, and personal choice.

FamilyCare are a registered NDIS provider and provides high quality supports to NDIS participants, and people who wish to self-fund services.

For more information about this program contact us on **03 5823 7041**, email intorec@familycare.net.au or visit a FamilyCare office in your area.

Disability Support Services *IntoRec* Program

IntoRec is a program of Disability Support Services.

The IntoRec program offers a range of recreational and social activities to children and young people with a disability.

School holiday and after school programs are offered, which include a variety of community and centre based group activities.

These programs aim to assist children and young people to develop life skills, interact socially, develop and maintain friendships, and to encourage participation in all aspects of their local community.

We have experienced workers who are qualified in all aspects of disability and health care support.

FamilyCare are a registered NDIS provider and provide high quality supports to NDIS participants and people who wish to self-fund services.

For more information about this program contact us on **03 5823 7041**, email intorec@familycare.net.au, or contact the FamilyCare office in your area.
